

# Maths

## Year 2 Fractions

# Comparing Fractions

# Aim

- I can find and compare fractions.

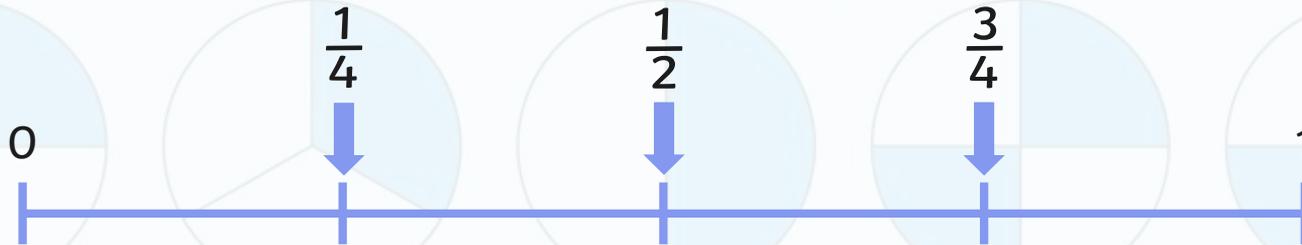

# Success Criteria

- I can find  $\frac{1}{3}$ ,  $\frac{2}{4}$ ,  $\frac{1}{4}$  and  $\frac{3}{4}$  of a shape, set of objects or quantity.
- I can compare fractions to find the largest amount.

# Quarters on a Number Line

Can you place these fractions on the number line?

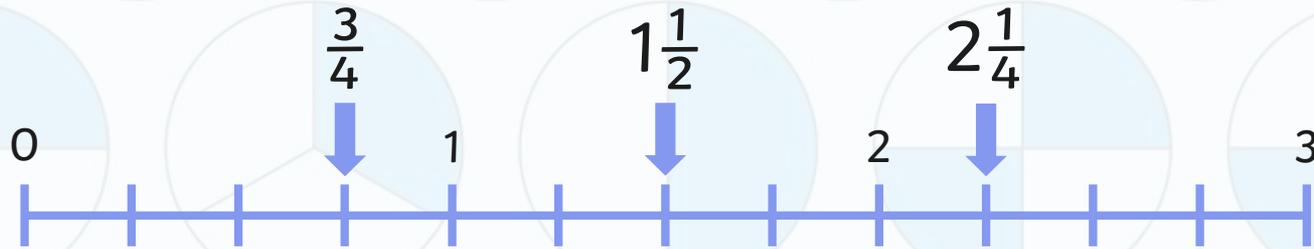

Click on the fractions to reveal their place on the number line.

# Quarters on a Number Line

Can you place these fractions on the number line?

$$1\frac{1}{2}$$

$$2\frac{1}{4}$$

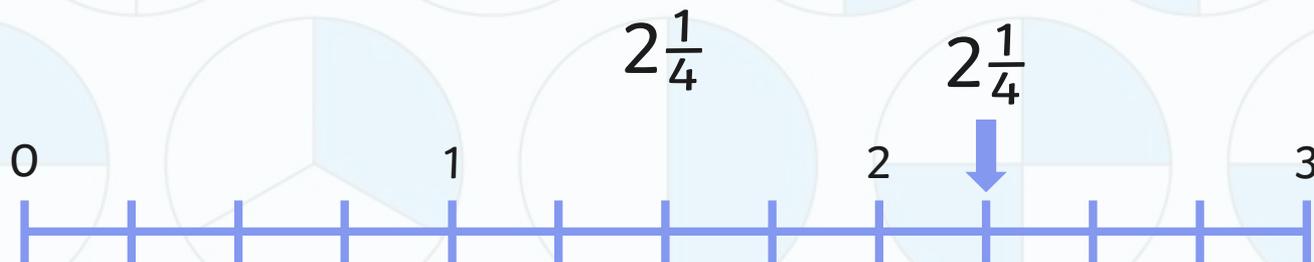

$$\frac{3}{4}$$

Click on the fractions to reveal their place on the number line.

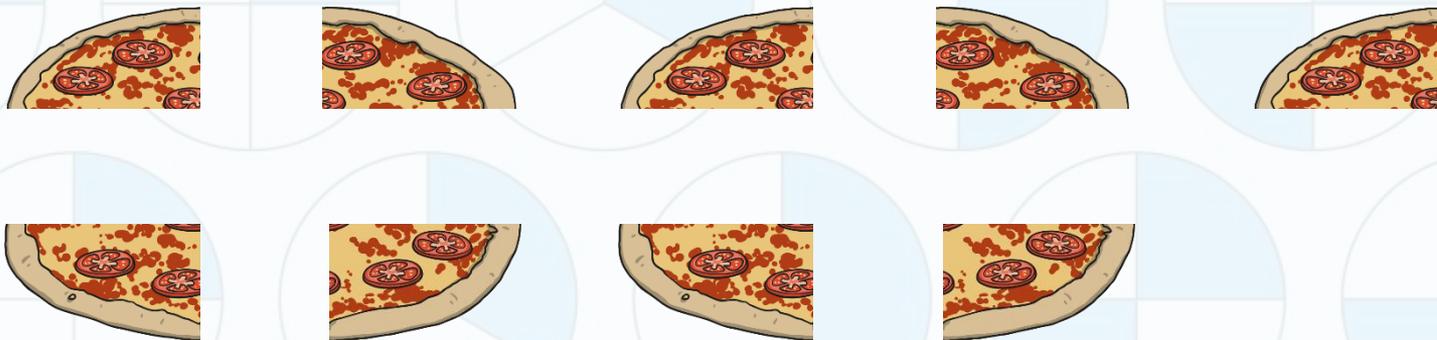

# Quarters on a Number Line

What number is represented here?

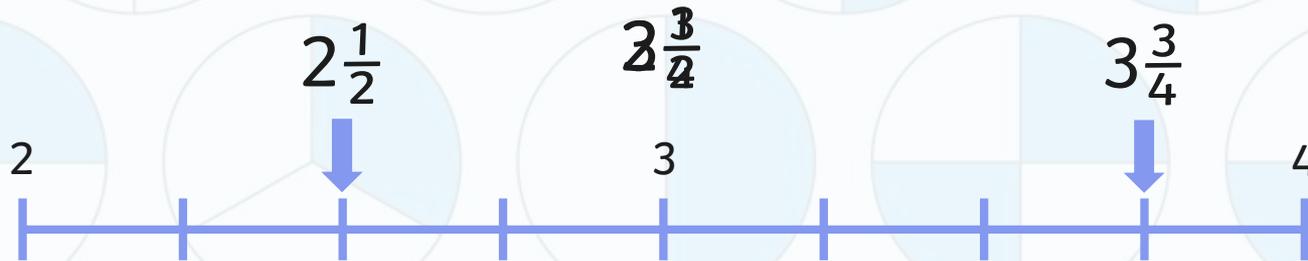

Where would you place it on the number line?

# Quarters on a Number Line

What number is represented here?

Where are 5 slices, you can write it here?

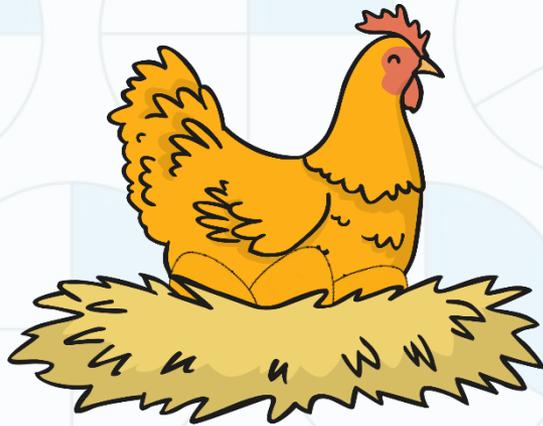

# Jack and the Giant

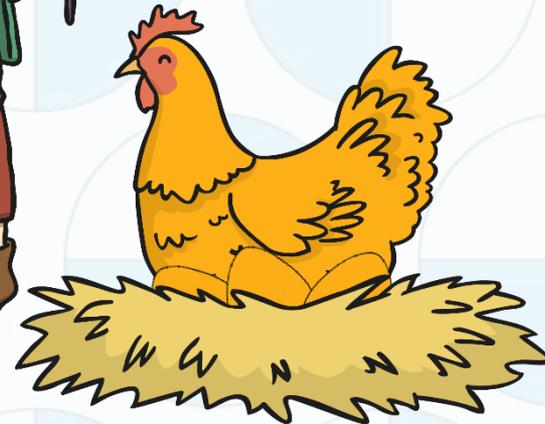

Jack likes to talk to the Giant!

He likes to ask him to give everything to him!

You can  
have  $\frac{1}{2}$  of  
my eggs.

You can  
have  $\frac{1}{3}$  of  
my eggs.

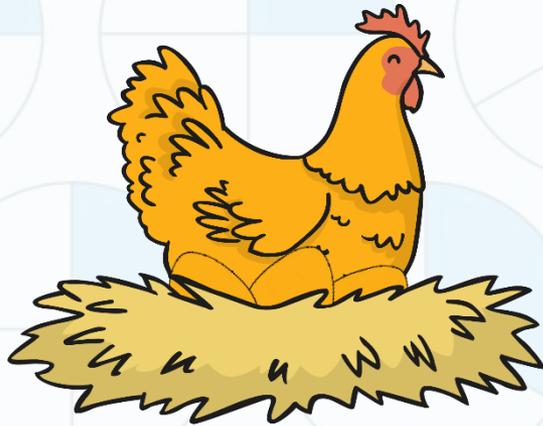

# Jack and the Giant

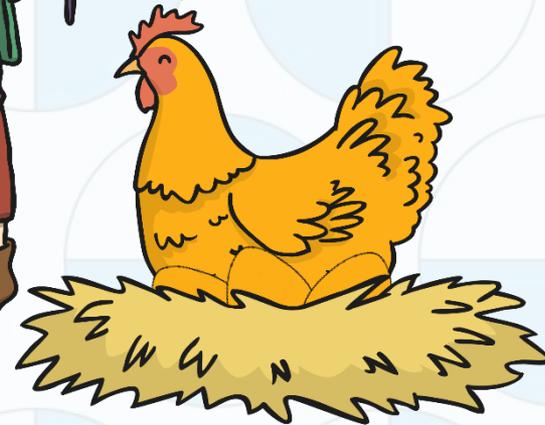

Which should Jack choose?

Give a reason for your answer.

$\frac{1}{3}$  of 12 eggs

$\frac{1}{2}$  of 12 eggs

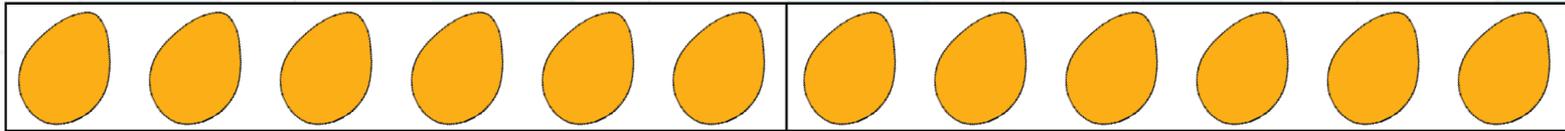

# Jack and the Giant

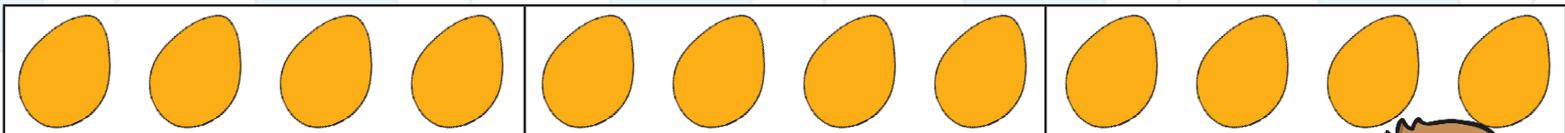

The chickens had to share  $\frac{1}{2}$ .

The hens had the same number of eggs but divided into fewer groups so there are more in each group.

This hen has divided her eggs into 2 groups.

This hen has divided her eggs into 3 groups.

# Balloons

Should Jack choose...

$\frac{1}{2}$  of 8 balloons?

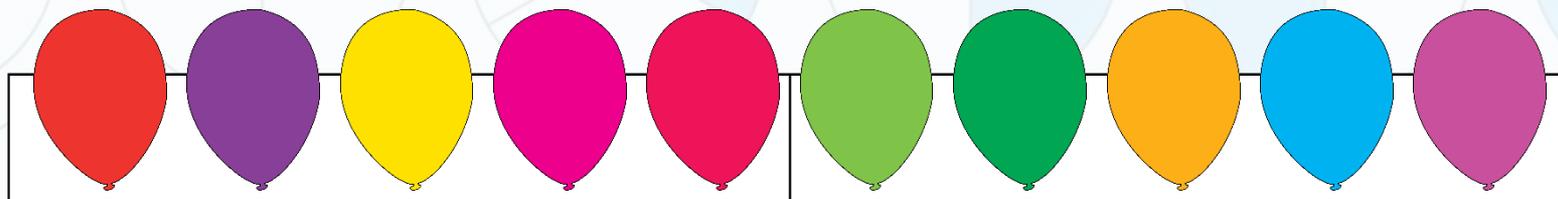

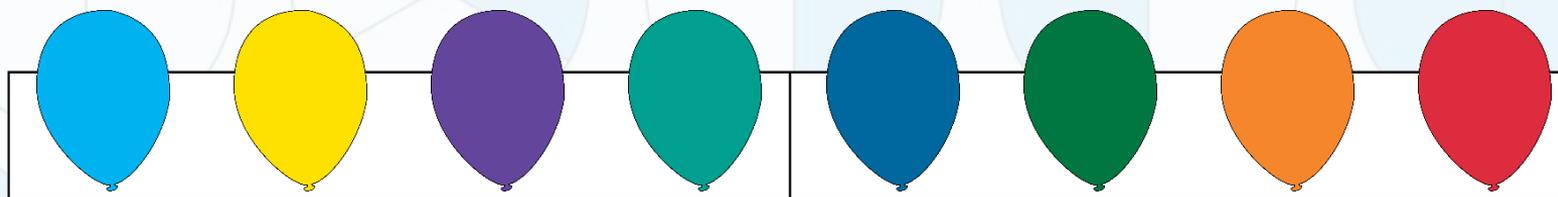

$\frac{1}{2}$  of 12 balloons?

# Balloons

Jack has 10 balloons. Jack has 2 children.

They have been divided into the same number of groups, so he needs to choose the highest quantity.

# What Would Jack Rather Have?

Which would you choose to get the largest amount of money?

$\frac{1}{3}$   
of 15p

or

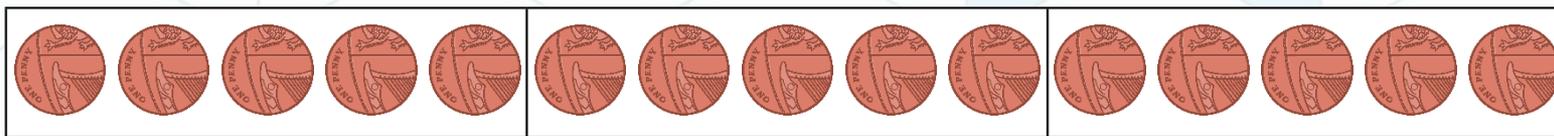

$\frac{1}{4}$   
of 24p

# What Would Jack Rather Have?

Which would you choose to get the largest amount of money?

Jack should keep  $\frac{1}{4}$  of 24p off 34p. This is more than  $\frac{1}{3}$  of 15p.

|--|--|--|

# Who Has More?

Jack finds 27 magic beans but can only carry  $\frac{1}{3}$  of them.

$\frac{1}{3}$  of 27 is 9

The Giant finds 16 magic beans and picks up half of them.

$\frac{1}{2}$  of 16 is 8

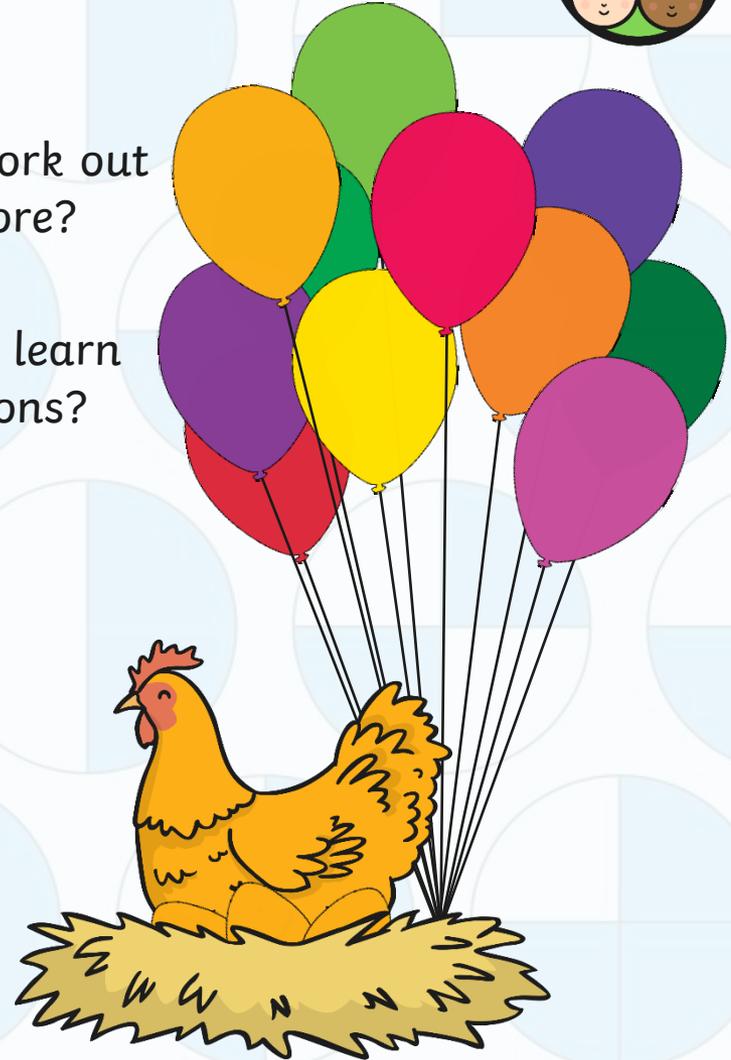

Jack has more.

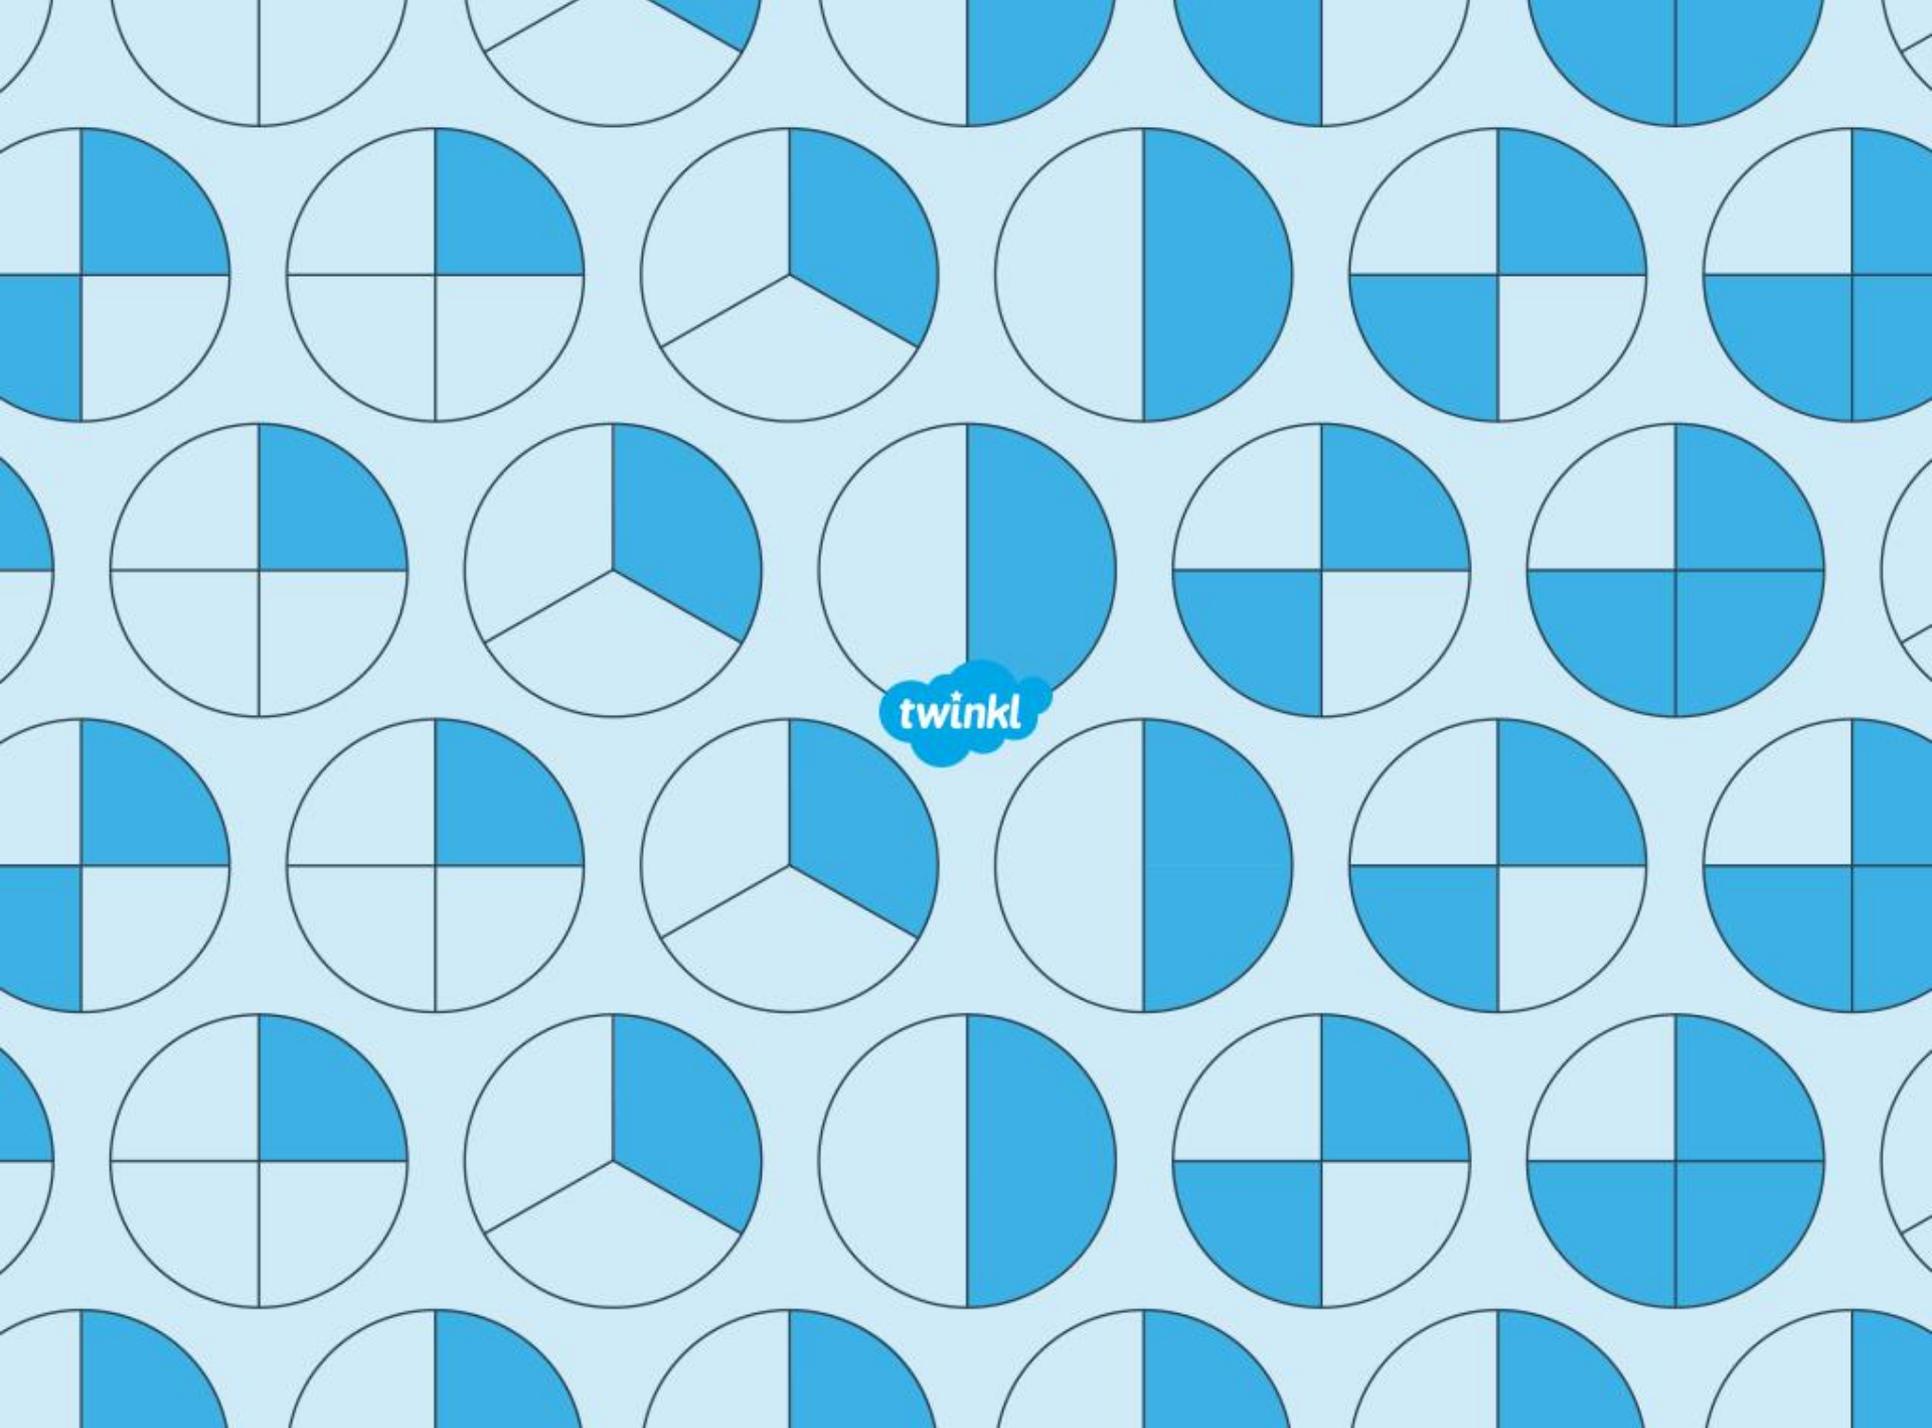

# What Have We Found Out?

How did you work out  
who had more?

What did you learn  
about fractions?
