

The Enormous Tomato

Once upon a time there lived a young girl called Lilly and she decided to grow some tomatoes. She watered them and cared for them until they began to grow. They grew and grew but one of the tomatoes grew bigger than the others! It was enormous! One day Lilly tried to pick the tomato but she couldn't pull it off the stalk. She pulled and pulled but it would not budge so she asked her mum to help.

“Can you help me mum?”

Together they pulled and pulled but it still wouldn't budge so she called her friend from next door. He came quickly and together they pulled with all their might but it still would not come free! She saw her cat sitting in the tree so she called it to help them. Over she ran and together they pulled and pulled but it still wouldn't budge! Then her hamsters scurried over to help. Together they pulled and pulled and pulled and then POP! The tomato popped off the stalk and they all tumbled to the ground. All of them had juicy tomato sandwiches for the next week because it was the biggest tomato ever.
