How to get there

1. First, creep quietly past the giant, fearsome tarantula. Be careful not to wake him or you might get bitten.
2. Then bravely climb the rocky volcano. Watch out for the boiling hot lava!
3. After that swing through the green, jungle vines so that you don't step on the venomous snakes. If you do get stung, use a cream from your First Aid kit.
4. Next carefully walk across the swinging rope bridge. Don't look down!
5. When you get to the end of the bridge, you will see a net. Quickly crawl underneath the net but be careful not to set off the trap.
6. Finally, jump down the magical waterfall and you will arrive in the Lost City.
