

Home Learning	W/C: Monday 20 th July	Year: 5
<p><i>Hi Year 5!</i></p> <p><i>We hope you're all well and keeping busy, especially keeping your brains busy!</i></p> <p><i>As well as the suggested activities here, you can always go on to BBC Bitesize Daily Lessons...choose Year 5, chose a subject and have a go!</i></p> <p><i>We're really looking forward to seeing you all on Tuesday!</i></p> <p>So, in preparation for Year 6, here are some ideas for activities you could do over the next 6 weeks.</p> <p>VERY IMPORTANT TASKS!</p> <ul style="list-style-type: none"> • Learn your times tables! There are lots of games and activities on line that you could use to help you. The more thoroughly you learn all of your times tables, the easier Maths will be next year! • Practise your list of Year 5/6 spellings. Remember to look up any unknown words in a dictionary to unsure that you understand the words and know when they can be used appropriately in your writing. <p>OTHER IDEAS;</p> <ul style="list-style-type: none"> • As it should have been the Olympic Games this year, create a mini-Olympics at home for you and your household to complete. You could use your Maths skills by involving measuring and timing. • Keep a diary. Include as much detail as you can and illustrate it. You could make your own little book to write in. • Create your own keep fit plan with diagrams and instructions. • Create a recipe book. You could either cook some cakes, meals, biscuits etc and take photos of your creations. Then put those in your recipe book along with good, detailed instructions. You would be using your Maths skills again involving measures and possible scaling (if you follow a recipe for 4 but you need to make it for 6 for example). You could create a different type of recipe book for example a witch's recipe book or a monster's recipe book. • If you enjoy making things, whether it is from recycled items or Lego or craft items, create an instruction book. Again, make it as weird as you want to. • Another suggestion would be to create your own newspaper. It could be about anything you wish; local news, family news, the environment, animals...anything! • If there is something or a country in the world that you are interested in, find out as much as you can about it and create a fact file. <p>Never stop learning and enjoy whichever tasks you do!</p> <p>See you Tuesday!!!</p>
