

Home Learning	W/C: Monday 8 <sup>th</sup> June	Year: 1
<p>Hello Year One,</p> <p>Hope you are all well. We look forward to welcoming some of you back into school this week and staying in contact with those of you that are remaining at home for the time being.</p> <p>We hope you enjoy the Home Learning below.</p> <p>Take care,</p> <p>Mrs Dammery &amp; Miss Revell.</p> <p>A quick video from Mrs Dammery <a href="https://www.youtube.com/watch?v=u4Ce2FwUHjk&amp;feature=youtu.be">https://www.youtube.com/watch?v=u4Ce2FwUHjk&amp;feature=youtu.be</a></p>		
	English	Maths
Monday	<p><b>LI: To listen to a story and to talk about it.</b></p> <p>In this lesson, we will be learning about the story of Saint George and the Dragon. We will be practising our sound of the week and finding out our new spellings. You will need a piece of paper and a pencil.</p> <p><a href="https://www.thenational.academy/year-1/english/saint-george-and-the-dragon-year-1-wk3-1">https://www.thenational.academy/year-1/english/saint-george-and-the-dragon-year-1-wk3-1</a></p>	<p><b>LI: To apply knowledge of number bonds.</b></p> <p>Watch this lesson from Oak Academy</p> <p><a href="https://www.thenational.academy/year-1/maths/to-apply-knowledge-of-number-bonds-year-1-wk5-1">https://www.thenational.academy/year-1/maths/to-apply-knowledge-of-number-bonds-year-1-wk5-1</a></p> <p>This lesson looks at how we can apply our number bond knowledge. You will be asked to find sets of two numbers that add up to a number below 20. When you finish the lesson, have a go at the end of lesson quiz.</p> <p>If you would like an extra task, have a go at the number bonds within 20 worksheet in resources. You can try working out the answers in your head or use some resources such as beads, lego, buttons etc. Count out the amount and the make two groups to work out the number bonds.</p>
Tuesday	<b>LI: To commit a story to memory</b>	<b>LI: To add two digit numbers to ones.</b>

	<p>In this lesson, we will be drawing our story maps to help us to remember the story of Saint George and the Dragon. We will also practise reading words with our sound of the week in. You will need a piece of paper and a pencil.</p> <p><a href="https://www.thenational.academy/year-1/english/to-commit-a-story-to-memory-year-1-wk3-2">https://www.thenational.academy/year-1/english/to-commit-a-story-to-memory-year-1-wk3-2</a></p>	<p>Watch this lesson from Oak Academy  <a href="https://www.thenational.academy/year-1/maths/to-add-two-digit-numbers-to-ones-year-1-wk5-2">https://www.thenational.academy/year-1/maths/to-add-two-digit-numbers-to-ones-year-1-wk5-2</a></p> <p>This lesson looks at adding single numbers to larger two digit numbers by counting on. Remember we always put the biggest number in our head first and then count on the smallest number. In this lesson the teacher talks about using dienes equipment, that is the same as what we call Base 10.</p> <p>When you finish the lesson, have a go at the end of lesson quiz.</p> <p>If you would like to continue with this, there are additional sheets in the resources called 'adding two digit numbers to ones'. You do not have to complete these sheets, they are there if you would like extra work.</p>
Wednesday	<p><b>LI: To describe a character's appearance</b></p> <p>In this lesson, we are going to be drawing our own versions of the dragon story. We are then going to be focusing on using adjectives to describe our dragon's appearance. You will need a piece of paper and a pencil.</p> <p><a href="https://www.thenational.academy/year-1/english/to-describe-a-characters-appearance-year-1-wk3-3">https://www.thenational.academy/year-1/english/to-describe-a-characters-appearance-year-1-wk3-3</a></p>	<p><b>LI: To subtract two digit numbers to ones.</b></p> <p>Watch this lesson from Oak Academy  <a href="https://www.thenational.academy/year-1/maths/to-subtract-two-digit-numbers-and-ones-year-1-wk5-3">https://www.thenational.academy/year-1/maths/to-subtract-two-digit-numbers-and-ones-year-1-wk5-3</a></p> <p>This lesson looks at taking away single numbers from 2 digit numbers. We can use our strategy of putting the biggest number in our head but remember we need to count backwards if we are taking away and sometimes this is trickier than counting forwards. The teacher looks at some other ways to work out the answers. If you need a number line to help you, there is one saved with the resources.</p> <p>When you finish the lesson, have a go at the end of lesson quiz.</p> <p>If you would like to continue with this, there are additional sheets in the resources called 'subtracting two digit numbers and ones'. You do not have to complete these</p>

		<p>sheets, they are there if you would like extra work.</p>
Thursday	<p><b>LI: To describe a character's personality</b></p> <p>In this lesson, we are going to think about the dragon's personality and how the story tells us about this. We will then be choosing adjectives to describe the dragon's personality. You will need a piece of paper and a pencil.</p> <p><a href="https://www.thenational.academy/year-1/english/to-describe-a-characters-personality-year-1-wk3-4">https://www.thenational.academy/year-1/english/to-describe-a-characters-personality-year-1-wk3-4</a></p>	<p><b>LI: To add two digit numbers to ones with regrouping.</b></p> <p>Watch this lesson from Oak Academy</p> <p><a href="https://www.thenational.academy/year-1/maths/to-add-two-digit-numbers-to-ones-with-regrouping-year-1-wk5-4">https://www.thenational.academy/year-1/maths/to-add-two-digit-numbers-to-ones-with-regrouping-year-1-wk5-4</a></p> <p>This lesson looks at how to add ones to two digit numbers when we go past the next ten. The teacher gives you two strategies to use. Remember you can always count on in your head or use a numberline too if you find it easier.</p> <p>When you finish the lesson, have a go at the end of lesson quiz.</p> <p>If you would like to continue with this, there is an additional sheet in the resources called 'adding two digit numbers and ones with regrouping'.</p>
Friday	<p><b>LI: To write a character description.</b></p> <p>In this lesson, we are going to be writing our character description for our dragons. We will be using the adjectives we have learnt to describe them and also working on some independent sentences. You will need you dragon picture and your writing from yesterday.</p> <p><a href="https://www.thenational.academy/year-1/english/to-write-a-character-description-year-1-wk3-5">https://www.thenational.academy/year-1/english/to-write-a-character-description-year-1-wk3-5</a></p>	<p><b>LI: To subtract two digit numbers and ones with regrouping.</b></p> <p>Watch this lesson from Oak Academy</p> <p><a href="https://www.thenational.academy/year-1/maths/to-subtract-two-digit-numbers-and-ones-with-regrouping-year-1-wk5-5">https://www.thenational.academy/year-1/maths/to-subtract-two-digit-numbers-and-ones-with-regrouping-year-1-wk5-5</a></p> <p>This lesson looks at how to subtract ones from two digit numbers when we go past the tens number. Remember to use your numberline to count backwards. The teacher goes on to use dienes to work out the answer, if you find this tricky just carry on using your numberline by counting backwards.</p> <p>When you finish the lesson, have a go at the end of lesson quiz.</p> <p>If you would like to continue with this, there is an additional sheet in the resources called 'subtracting ones from two digit numbers with regrouping'.</p>

## Enrichment Tasks

- Have a look at this Australian song [https://www.youtube.com/watch?v=zsO\\_XLmInIM](https://www.youtube.com/watch?v=zsO_XLmInIM). Practise singing along with it. Can you learn some of the words? Can you make up some actions? Why not perform it to your grownups.
- This week some of you will be returning to school in bubbles, while some of you will be remaining at home and continuing with your home learning. Wherever you are, we bet you are missing your friends as much as they are missing you. Why don't you write a letter to the rest of the class? You could tell them what you have been doing, what you have learnt and what you are looking forward to when school gets back to normal. Then you can email your letters to the school as photos or attachments (if you write them on the computer). The children that are in school will also write letters to those that are still at home or in a different bubble. Mrs Dammary and Miss Revell will then share the letters with all the children in the class by reading them out and by filming ourselves reading them and sending them to the children at home through parentmail. Just because we are not all together, does not mean that we have forgotten about each other.
- The weather at the moment is glorious. What words would you use to describe the weather today? Can you create a piece of art that shows that weather. It could be a picture of you doing your favourite summer activity or on your favourite summer holiday, a design made up of things you might find in your garden at this time of year or a collection of all the different types of flowers you might see. It is totally up to you, the only requirement is that it represents the summer weather.
