UNDERSTANDING BEHAVIOUR

WORKSHOP FOR PARENTS & CARERS

Wednesday 26th November at 9:00am

Understanding and supporting the behaviour of children and young people is a tricky business. Lots of our intuitive responses to challenging behaviour can be damaging to our children's mental health, too.

We are delighted to welcome Charlotte Clarke from When the Adults Change. She will share highly practical and incredibly effective strategies that will help you hold firm boundaries and nurture positive behaviours without arguing with your children; without feeling exhausted and without compromising the quality of your relationship.

She will share strategies that are highly effective in any family environment and will ensure you can create a calm home, a strong relationship and teach your child the behaviours you want to see.

Charlotte will share a combination of her own experiences of being a parent to 3 children, her clinical experience and her expertise within relational practice to ensure you know how to teach your children how to behave without causing any emotional harm or damage.
